

# PRESENTATION

## ASIC MINERS FIRMWARE FOR MAXIMUM ROI

RETHINK THE EFFICIENCY OF YOUR MINING

How to increase mining profitability • Self-optimizing technology • Remote installation in minutes  
• Free download and testing • 50+ supported models • Automatic updates

THE WORLD'S LEADING FIRMWARE FOR ASIC MINERS

**10+ years**  
of cryptomining excellence

**26%+**

*of the world's custom ASIC firmware market*

*It's a critical decentralized Bitcoin mining infrastructure*

**GLOBAL  
HASHRATE  
AUTHORITY**

**CRYPTOMINING  
INDUSTRIAL  
ADOPTION**

**VNISH  
COORDINATION  
LAYER**

# MAXIMIZE THE RETURN ON INVESTMENT OF YOUR ASIC DEVICES

**+20% HASHRATE**

**-30% ELECTRICITY COSTS**

**Up to +50% net profit\***

\* Combined effect from using all possible options and improvements of our solution

---

## WORLD-CLASS FIRMWARE FOR ANTMINERS

Deployed remotely in minutes.

**Download from the website right now and start mining smarter!**

# INDUSTRY SYSTEM PROBLEMS

## FACTORY LIMITATIONS

Manufacturers intentionally understate performance by 15-25% for universal stability

## ENERGY INEFFICIENCY

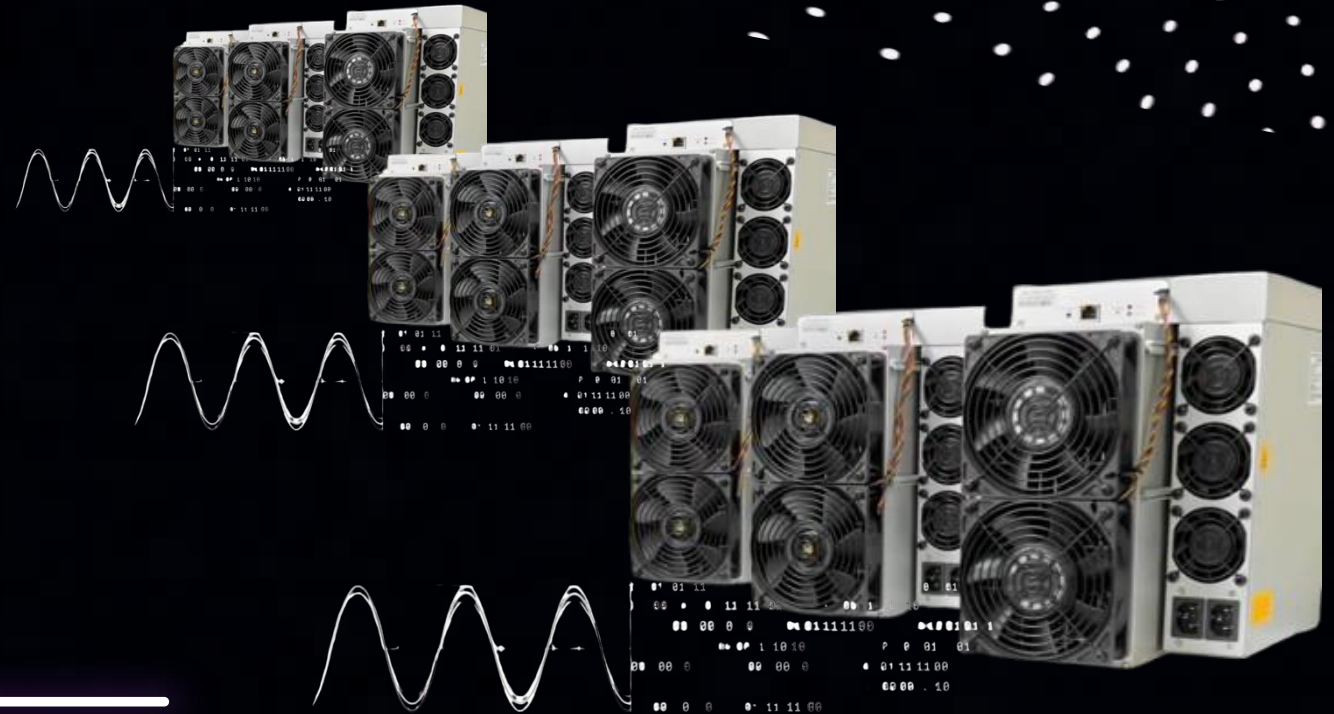

Standard settings consume up to 30% more electricity at the same power

## LACK OF OPTIMIZATION

90% of miners use factory settings without the necessary personalization for farm conditions

---

**DAILY MINERS LOSE UP TO 50% OF POTENTIAL PROFIT**

# SOLUTION: Firmware-as-a-Service

## COMPREHENSIVE SOLUTION FOR MAXIMIZING ASIC MINING EFFICIENCY

### PERFORMANCE INCREASE

Ensuring higher chip performance, device overclocking and hashrate increase of 15% - 25%

### SAVE ON ENERGY

Reducing power consumption by up to 30%, ensuring optimal "power - consumption" ratio

**VNISH IS NOT JUST A PRODUCT - IT'S A COMPLETE ECOSYSTEM OF BENEFITS**

**VNISH IS CAPABLE OF COMPLETELY TRANSFORMING THE ECONOMICS OF YOUR MINING**

Combined effect from using all possible options and improvements of our solution can provide net profit growth of **50%**

# PRODUCT ADVANTAGES

## INDUSTRIAL-LEVEL TECHNOLOGY:

### EASY AND FAST INSTALLATION

Remote installation without SD cards directly to NAND

### NO IMPLEMENTATION RISKS

Ability to roll back to factory firmware at any time with a few clicks without losing device warranty

### HASHCORE TOOLKIT

Automated installation and update system for an unlimited number of devices

### REAL-TIME OPTIMIZATION AND MONITORING

Dynamic adjustment to changing conditions (temperature, load), management from anywhere in the world, dozens of free useful technical functions

**VNISH - THE FUTURE OF MINING IS AVAILABLE TODAY**

## 50+ SUPPORTED MODELS:

S21/T21 Series

L7/L9 Series

S19/T19 Series

SELECT YOUR FIRMWARE

Version: 1.2.6-stable

Model: Antminer S21 Pro

Type: AML

Method: NAND

No tech skills? No problem. We guide every step

SELF INSTALLATION

ROI ASIC Firmware for Bitmain antminers

**Antminer S21 Pro**  
AML - NAND, 1.2.6-stable

# TARGET SEGMENTS, TYPICAL CLIENTS

UNIVERSAL SOLUTION FOR ANY SCALE OF OPERATIONS:

## LARGE PUBLIC MINING COMPANIES (5000+ devices)

Interest and focus - on flawless operational excellence

## MEDIUM MINING FARMS (100 - 5000 devices)

Interest and focus - on ROI on investments made

## SEMI-PROFESSIONAL MINERS (up to 100 devices)

Interest and focus - on electricity cost optimization

## MINING INFRASTRUCTURE OPERATORS (hosting)

Interest and focus - on additional value for clients, bundle sales

## SERVICE AND REPAIR SPECIALISTS (administrators)

Interest and focus - on additional personal income and positive reviews

**OPERATION SIZE DOESN'T MATTER - EFFICIENCY MATTERS.  
EACH TYPE OF CLIENT WILL FIND THEIR BENEFIT IN VNISH SOLUTION**

# BUSINESS MODEL

## FAIR BUSINESS MODEL WITHOUT STARTUP FEES AND HIDDEN PAYMENTS

### FREE TESTING AND IMPLEMENTATION

Completely free installation, setup and 24/7 technical support. No prepayment, lump-sum/licensing fees, hidden commissions

### PERFORMANCE-BASED COMPENSATION

DEV FEE compensation (1.8 - 2.8% of hashrate) is offset many times over by the performance gains of your devices (and goes to support, development and product updates)

### AUTOMATIC ADMINISTRATION

Compensation is charged exclusively for active mining time on firmware and is automatically deducted through its built-in algorithms. No monthly calculation and administration required

**WIN-WIN ECONOMICS: WE ARE DIRECTLY INTERESTED IN YOUR GROWTH AND RECEIVE COMPENSATION ONLY WHEN YOU EARN CONSIDERABLY MORE**

# TECHNOLOGICAL AND OPERATIONAL LEADERSHIP

## WHAT MAKES VNISH A UNIQUE SOLUTION:

### CUTTING-EDGE RESEARCH & DEVELOPMENT

Deep expertise in ASIC hardware optimization, accumulated over years of research

### NETWORK EFFECTS

Growing optimization database for each miner model deepens our market leadership

### OPERATIONAL EXCELLENCE

Proven support and implementation system, refined across thousands of devices

---

**VNISH – THE RESULT OF WHAT OTHERS CONSIDERED IMPOSSIBLE**

## SUSTAINABLE COMPETITIVE ADVANTAGES:

- Accumulated optimization data for each ASIC model
- Established partner network worldwide
- Technical expertise of development team

# PROVEN RESULTS (EXAMPLE)

Model	Firmware	Hashrate THS	Power consumption watt	Electricity cost \$	Profitability (per month \$)	Firmware upgrade (VNISH / stock)
Antminer S19 (76 chips)	stock	90	3100	0.05	36	-
Antminer S19 (76 chips)	VNISH	90	2700	0.06	49	+ 34%
Antminer S19 (76 chips)	VNISH	99	3100	0.06	54	+ 50%
Antminer S19 (88 chips)	stock	90	3250	0.06	30	-
Antminer S19 (88 chips)	VNISH	90	3000	0.06	40	+ 33%
Antminer S19 (88 chips)	VNISH	99	3300	0.06	44	+ 47%
Antminer S19 Jpro (126 chips)	stock	104	3300	0.06	54	-
Antminer S19 Jpro (126 chips)	VNISH	104	3100	0.06	63	+17%
Antminer S19 Jpro (126 chips)	VNISH	110	3300	0.06	66	+ 22%

# TYPICAL IMPLEMENTATION PLAN

PROVEN IMPLEMENTATION METHODOLOGY WITH RISK MINIMIZATION

## STAGE 1 - PILOT TESTING

**1** Free installation directly from the website on 1-5 devices for checking functionality, compatibility and measuring real efficiency indicators

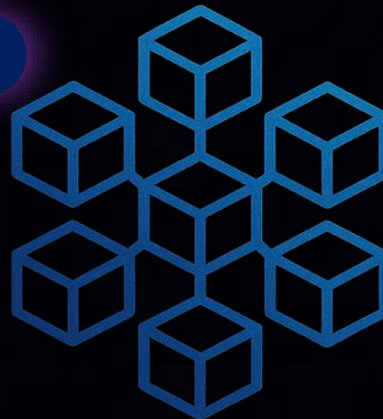

## STAGE 3 - FULL SCALING

**3** Deployment on the entire equipment fleet with the ability to adjust at each stage and full process control

## STAGE 2 - LIMITED DEPLOYMENT

**2** Implementation on 10-20% of your fleet with detailed monitoring of results and fine-tuning settings for your conditions

### FULL OPTIMIZATION:

- Ability to roll back at any stage without time or resources
- Preservation of manufacturer warranties on all equipment
- Efficiency maximization through real-time monitoring, automatic updates and technical support

FROM SEVERAL DEVICES TO THOUSANDS - FLAWLESS TRAJECTORY OF EFFICIENCY GROWTH WITH FULL CONTROL OF ALL RISKS

# TECHNICAL SUPPORT AND RELIABILITY

## PROFESSIONAL SUPPORT FOR UNINTERRUPTED OPERATION

### GLOBAL COVERAGE

Technical support in major mining regions worldwide considering time zones and local requirements

### DIRECT CONNECTION WITH DEVELOPERS

Instant communication channels for direct access to development team without intermediaries or long waits

### CONTINUOUS UPDATES AND DEVELOPMENT

Regular firmware improvements, new ASIC model support and proactive measures to prevent downtime

### COMPREHENSIVE GUIDES AND BEST PRACTICES

Detailed recommendations and proven practices for maximum effectiveness technology use

## QUALITY TECHNICAL SUPPORT - THE FOUNDATION OF OUR SERVICE

# PARTNERSHIP

TURN VNISH SOLUTION INTO AN ADDITIONAL SOURCE OF YOUR INCOME

## CUSTOMIZATION POSSIBILITY

Custom firmware with your own DEV FEE percentage included to create additional value for clients

## PASSIVE INCOME FROM CLIENTS

Guaranteed payment from your clients through improved performance of their equipment with your branded firmware

## REFERRAL PROGRAM

Long-term commissions for each acquired client with a share from DEV FEE on a permanent basis

## FULL TECHNICAL SUPPORT

Consultations, training and assistance in installation, equipment setup, as well as automatic firmware updates

**YOUR CONNECTIONS AND EXPERTISE + OUR TECHNOLOGIES AND SUPPORT = NEW POWERFUL INCOME SOURCE FOR YOU**

# START RIGHT NOW

## FREE TESTING

Download the firmware you need directly from our site and test it on several devices without any obligations or risks

## SCALE THE RESULT

Implement already tested or specially created solution for your requests on entire fleet and enjoy profit and efficiency growth

---

**VNISH - THIS IS NOT ABOUT MINOR TECHNICAL UPDATES.  
THIS IS A REVOLUTIONARY TOOL FOR INCREASING YOUR MINING EFFICIENCY**

---

**GLOBAL ENTERPRISE SOLUTION, AVAILABLE IN ONE CLICK TO EVERYONE  
+20% HASHRATE • -30% ELECTRICITY COSTS**

---

**YOUR GLOBAL MINING ADVANTAGE - JUST ONE DOWNLOAD AWAY!  
WELCOME TO THE FUTURE OF MINING!**
